

K-Love provides me with encouragement and a radio station that provides good listening music without crude language or sexual references among other things. I believe K-Love provides a positive alternative to a lot of radio stations out there.

Because it promotes family values, a positive and encouraging atmosphere and has Jesus Christ as its focus I believe it does provide a very needed service to the community.

K-love reaches many communities and I enjoy the fact that when I travel this station can be picked up in many locations.

With these facts in mind I know that this station is a much needed community resource.

Thanks for your time
